

# 9-12 Math Curriculum Adoption Meeting #3- April 5, 2021

Facilitators:

Dr. Courson - [dcourson@pvschools.net](mailto:dcourson@pvschools.net)

Amber Strang - [astrang@pvschools.net](mailto:astrang@pvschools.net)

## Overview

A committee was formed of high school and middle school teachers from across the district, parents, and principals to recommend a new 9-12 Math Curriculum to the Superintendent's Cabinet and Governing Board. The committee will strive for a consensus in their decision making where every member is willing to support and implement the adopted curriculum. Helpful resources: [Agenda for Meeting #3](#) [Presentation from Meeting #3](#)

## Timeframe

The committee will use this map to guide them: [Curriculum Resources Adoption Process](#)  
Plan for Meeting #3 - Vendors will present their products and the committee will conduct the second elimination phase.  
Plan for Meetings #4 & #5 - The committee will have an opportunity to sample the products in their classrooms.

A soft launch will occur in Fall 2021 so teachers can begin looking at and using the new curriculum in their classroom. Professional Development training opportunities will be available for teachers to learn how to use the new resources. If the committee needs more time to come to a final decision on which curriculum to adopt, then they will keep working until the group can come to a consensus.

Refer to Slide 5 on the [presentation](#) for a specific timeline for the next steps of the adoption process.  
Refer to Slides 7-8 on the [presentation](#) for how the adoption committee is defining a "soft launch".

## Committee Subgroups

The committee was separated into 5 subgroups. Committee members could choose multiple groups to be a part of. The subgroups met and decided which vendors they felt should move on to the next round of the adoption process.

Subgroup	Vendors moving on the the next round
<a href="#">Algebra 1-2, Geometry, &amp; Algebra 3-4</a>	McGraw Hill - Reveal, HMH, Savvas
<a href="#">PreCalculus, Calculus, &amp; Topics of College Algebra</a>	McGraw Hill - Reveal, BFW, Savvas
<a href="#">Statistics &amp; AP Statistics</a>	BFW & Savvas
<a href="#">Applied Math</a>	Savvas - the subcommittee decided the only appropriate textbook worth adopting is from this vendor
<a href="#">Computer Science</a>	Cengage & Savvas

## Vendor Video Presentations

Each of the vendors moving on to the next round will receive a request for a 30 minute video showcasing their product. The adoption committee wants the videos to include a general review of the curriculum, a description of their online presence & online resources, include if they have an online homework component, and how the curriculum plans to fill in gaps caused by the pandemic and unfinished learning.

The videos will be uploaded to the district website for all stakeholders to view. Parents, students, teachers, administrators, and members of the community are all encouraged to fill out feedback forms and provide input.

The vendor videos will be able to be viewed from April 21-May 5. The committee will advertise and promote this out to all of the stakeholders to get the word out and encourage participation.

## Communication

Some members of the committee volunteered to help communicate with stakeholders so a consistent message can be shared from each meeting. These volunteers will email a common document to their assigned group and answer questions as needed. They will also report back to the committee if necessary. (The list of volunteers can be found on Slide 14 of this [Presentation](#).)

## Next Steps

Each subgroup will meet to discuss the proposals sent from each vendor. They will use a common [rubric](#) to determine if the vendor should advance to the next round of the adoption process. All 5 subgroups will report to the group on April 1 their feedback and if they plan to recommend the vendor.

Meeting #3 is scheduled for April 1 from 2:45 pm - 4:15 pm.
